

Process for Requesting Contact & Vetting Alumni

1. Student Responsibility: Research & Identify Alumni

- Students are responsible for researching and identifying alumni they wish to contact.
- They should source names independently before seeking assistance from their club advisor(s).

2. Advisor/Club Leader Responsibility: Initial Check

- Once students have identified alumni, they must check with their advisor(s) to see if the contact is already known.
 - Advisor(s) should weigh in on if the alumni are being considered for other club and/or Benet CMC programming to guide on next steps.
- The club advisor(s) must verify the alum's name against the Request to Contact List and Vetting Alumni Ask Policy.

3. Outreach Guidelines

- If the alum is **not on the list**, students may proceed with outreach using **approved messaging from advisor(s)**.
 - Club leaders will manage the ongoing communication. Best practice is to have the club advisor cc'd for awareness.
 - Advisor(s) will share with Diana Sipp (Associate Director of Engagement): dsipp@simon.rochester.edu that an outreach has been made by which club.
- If the alum is **on the request to contact list**, **student club leaders will contact Diana, with club advisor(s) cc'd with full details of the ask (type of event, proposed date/time, description of the event, and what the exact ask of the alum is)**. Diana will reply to the student club leaders with club advisor(s) cc'd on if club leaders can:
 1. Proceed with the ask.
 2. If Advancement would need to facilitate the ask.
 3. Or if the request is denied before any outreach occurs.

4. Tracking & Reporting

- Club Advisor(s) (*or department representative*) adds to the alumni engagement tracking sheet when alum is confirmed and reports back to Advancement when the event concludes.
